Indonesia

humas@itb.ac.id
<https://www.itb.ac.id>

SOLUTIONS BASED PROGRAM

A combination of lectures and field practice. The field practice will be visiting and interacting with the sustainable businesses community, looking for existing problems, and then proposing some solutions based on these problems. The sustainable businesses community consisting of community schools that run sustainable living and also urban agricultural farming community.

Academic aspects of this program consist of social entrepreneurship & international communication and conflict management”

UNDERSTANDING INDUSTRIAL ENVIRONMENT IN INDONESIA

This package will be hosted by the Urban and Regional Planning study program with a total of 9 credits involved consisting of Infrastructure Planning, Economic of Infrastructure and Transportation, then Urban and Regional Innovation System, the last one is Transportation Governance, so this is more about infrastructure. sustainable transportation.

The program will focus on understanding sustainable infrastructure planning, then the activities besides lectures will include joint seminars in the three parties, namely with partners for this program, Universiti Sains Malaysia and Deakin University Australia. In addition, it is planned to hold a field trip to the transportation authority in Jakarta or Bandung.

FIRST-HAND SUSTAINABLE BUSINESS

There will be 3 sustainable businesses to which students can contribute. Students will explore a business, such as creating a new product. Then there are also community schools which are not formal schools. The school runs sustainable living. And there is also an urban farming community, urban agricultural farming, where students will interact with community members and also interact with businesses, hopefully at the end of the course they can come up with something.
