UNIQUE COURSE PACKAGES

Ecological Design will be jointly managed by the Architecture and landscape Architecture study programs which is a course package. There are 4 courses from SAPPK ITB plus one course from Product Design, namely landscape ecology, bamboo building technology, green building, then history and tradition of Indonesian architecture which is a course from architecture and landscape architecture, then design thinking from product design. In addition to lectures, there will be a field survey planned at Gunung Geulis, as well as cultural trips to Naga and Baduy villages related to the history and region of Indonesia architecture course, so the participants at the end of the semester will be given a package/trip around Java. West.

BAMBOO BUILDING TECHNOLOGY & CULTURAL TRIP

At Gunung Geulis students as participants will be trained or exercised to make designs, landscape designs and supporting facilities, because here there are lectures on bamboo building technology, then green building, so Gunung Geulis will be positioned as the location of the ecological design studio.

The Cultural Trip to Kampung Naga and Baduy is a one day trip for each destination, where students will see architectural traditions and living traditions that have been carried out for hundreds of years by the natives, which is commonly called the architecture vernacular, there will be interviews or discussions with original residents.

- Landscape Ecology (3 Credits)
- Bamboo Building Technology (2 Credits)
- Green Architecture (2 Credits)
- History and Tradition of Indonesian Architecture (2 Credits)
- Design Thinking (2 Credits)
